

I need it on brand,  
on budget, ready  
to publish and  
I need it now!

Is anyone listening?

# So busy your feet never touch the ground?

No matter how well organised you are, it's reassuring to know that much of your pressure to deliver meaningful content can be reliably shared with a team of like-minded professionals.

A team of linguists, account managers, project managers, IT staff and studio artworkers who can take your native materials and deliver ready-to-go multilingual documentation, websites or software.

## Who We Work With...

Prestige Network supports the translation and interpreting needs of organisations with vastly different demands.

But a common thread runs throughout. Our service will deliver the highest quality product, we will provide excellent client support and we will provide security and confidentiality for commercially or personally sensitive information.

### Enterprise & Corporates

We provide enterprise-wide support, helping international businesses achieve their goals. Whether the need is legal, financial, technical, HR or marketing, our integrated approach ensures consistency and accuracy together with a crisp, personalised service.

Our technologies allow us to interact directly with every individual within your organisation, offering real-time management information that keeps your team in control.

### Public Sector

Prestige Network is an approved supplier on the 2016 Crown Commercial Services (CCS) framework agreement RM 1092 to provide translation and face-to-face interpreting services to Central and Local Government, NHS Trusts, police, charities, schools and many public sector bodies. Prestige Network has now been providing public sector translation and interpreting services for 26 years.

### E-commerce Professionals

With an established legacy of translating e-commerce content, we know how to bring your products to market quickly and efficiently regardless of platform, channel or target destination.

In-house IT specialists will ensure that the technical aspects of even the largest project will be managed expertly, working with your team to ensure seamless integration.

### Marketers

Having taken weeks, maybe months to create and refine campaigns, you will be seeking a specialist service experienced in understanding, translating or transcreating creatively written content. Our team of account managers, bi-lingual copywriters and editors will ensure that your carefully crafted message really speaks to every one of your markets - regardless of language and culture.

# A simple solution for complex challenges

## That's Our Goal

Making a complex world straightforward

Delivering ready-to-publish translation for marketing and promotions, technical subjects or medically and legally accurate and dependable translations is a complex process when done properly.

Prestige Network take away the complexity. We deliver a personal, highly professional service where we manage every aspect of the process, delivering exactly what you need when you need it.

Every time.

Sound system hire

Large enough to  
trust, passionate  
enough to care

## Trust

Since the company's inception in 1991, Prestige Network has built an enviable reputation for doing exactly what we say. We understand that supplier reliability is the key to achieving your business goals.

You will have the confidence engendered by a financially stable organisation, that is large enough to trust and to deliver, while retaining a friendly, personalised service.

The dedication of our staff and the quality of our global linguist network together with strong managerial and technological expertise are at the heart of our success.

Through teamwork we have gained the trust of major multinational corporations, online retailers, SMEs and Government agencies.

## Quality

Quality management is the primary reason for using an established translation services provider. We believe in interaction between the stakeholders, establishing criteria and ensuring that your native material is thoroughly prepared for translation.

Add proven quality management processes and technology tools to our 26 years' experience, plus a highly experienced management team and you can be confident that your translation or interpreting assignment will always meet expectation.

Excellence  
in everything  
we do

## Security & Confidentiality

Security is an important consideration for every organisation, whether fast-growth SME, established enterprise, public sector or local and central government.

Prestige Network has invested in all aspects of security. In technology, in physical assets and ensuring that our human resources are trained to be fully compliant with the most demanding of security requirements as defined by ISO 9001:2015 and ISO 27001.

Additionally, we recognise that many clients need to maintain strict commercial confidentiality. Because we only use an established, contracted network of linguists you can rest easy, knowing that your documentation or marketing campaign will remain secure.

Add a little technology and you can be sure that your files travel safely to one or multiple destinations.

## Client Support

Prestige Network deliver pro-active client support; an ethos that extends far beyond simply offering a basic translation or interpreting service.

Client support starts with your dedicated account manager, responsible for gaining an in-depth understanding of your business and extends through every aspect of the organisation: project manager, translators, interpreters, technologists and artwork/DTP specialists.

Through regular analysis of client-side requirements, we will manage your resources and processes creating the ideal environment for delivery of a service that keeps pace with your expectations and business growth.

If you are seeking a long-term translation services partner, or simply need help in fulfilling a single project, call us for friendly and professional advice.
